

ID	: 12001100	Report Date	: 27-01-2012 12:10:42
Name	: Mr. Badan Barman		
Age / Gender	: 29 Years / Male	Patient Type	: OPD
Referred By	: DR. SANGIT DUTTA	Report No	: SRX1200000399

**X-RAY: DORSAL SPINE AP AND LAT VIEWS**

Dorsolumbar curvature is reduced. *Small anterior marginal osteophytes are seen at multiple places.*

The visualized dorsal vertebrae are normal in alignment, height and bone density.

Disc spaces are normal in height with smooth end plates

No abnormal para vertebral soft tissue opacity is seen.

**IMPRESSION: EARLY DEGENERATIVE CHANGES**
